TREMENDOUS GALE.

LOSS OF THE ATLANTIC!!

We are indebted to Mr. KELLOND, of the steamer Roger Williams, for a copy of the Providence Journal of this morning, and also yesterday's IN. York Express. He informs us that the cars from Stonington arrived in Providence a few moments before the boat left, and in the hurry of the moment, and the excitement that prevailed, he could only gather a few particulars in regard to the melancholy fate of the Atlantic. He learnt from Harnden & Co's Express Agent that the Atlantic had gone to pieces, and that from SEVENTY TO ONE HUNDRED LIVES LOST, and among them the noble commander, Capt. Dustin, who was crushed to death when the boat broke in two. Very little of the boat is now to be seen, she having gone almost entirely to pieces. The position of the boat is explained in the following, from this morning's Journal.

From the Providence Journal, of this morning.

The Gale in the sound has been very severe. The Massachusetts, which was due on Thursday morning, arrived at about noon, after a very rough and boisterous passage. Both the Massachusetts and the Governor were at Stonington yesterday morning, neither having left on Thursday. The Atlantic, which left New London last Wednesday evening, was passed by the Massachusetts near Fisher's Island. Her smoke pipes were down, and she had a signal of distress flying; but such was the violence of the gale, that the Massachusetts could not approach her. We learn from T. C. Gladding, Esq., who left Stonington yesterday morning, that the Atlantic was seen from Stonington at sunset on Thursday, apparently having dragged her anchors some, and in a position of peril. The Mohegan attempted to go to her assistance from Norwich, but could not approach near enough to render her any service, or even to communicate with her. It was not light enough to see the Atlantic when the cars left Stonington yesterday morning.

Since the above was written, we have been favored with the following letter from a gentleman of this city.

Correspondence of the Journal.

Stonington, Nov. 27—11 A. M.

We are in Stonington. It blew a perfect gale up to 8 o'clock this morning. The Massachusetts is now aground—shall leave in one hour. The steamer Atlantic is now ashore just to the eastward of Noyes' Hill, Fisher's Island, exposed to the whole force of wind and tide through the Sound. She is on the rocks, and the sea is breaking over her. A steamer has just arrived which passed near her and saw no one on board. She is in a perilous situation, has probably bilged, and may be a total loss. Efforts are now making to save the passengers; two snacks from Mystic are trying to board her. She was seen last night dragging her anchors. The steamers Mohegan and New

Haven attempted to tow her in yesterday, but without success, it being so rough that the captain of the Atlantic would not let them come alongside. Her smoke pipes are gone, and her engine broken. Probably the engine broke off Bartlett's Reef, rendering her unmanageable. She anchored and dragged to where she now lies. The pilot of the Massachusetts saw her chimneys standing as she approached her yesterday morning, but in a few minutes they were gone—supposed they were cleared away to prevent the boat from dragging. This is a sad affair. I hope no lives are lost. I went on to the light-house this morning about daylight and discovered her. The steamer Governor lies here, and will not leave until to-morrow.

From the New York Express of yesterday.

GREENPORT, L. I.

Tuesday, Nov. 24, 1846.

The Long Island train left New York yesterday morning, at the usual hour, with about fifty passengers. The gale, which was blowing very hard at the time, increased during the day, and continued here, with great fury, till 12 or 1 o'clock last night.

Capt. Bacon, commander of the New Haven, (the boat which now crosses with the passengers,) started immediately on the arrival of the cars, and after going out about nine miles, near Plum Island, in full view of the heaviest sea, thought it prudent to remain for a while under the Island; but on throwing out one anchor, and finding the wind carried the boat before it, dragging the anchor, he returned to Greenport, in accordance with the request and wishes of the passengers. There has not, probably, been a more boisterous time in many years, with the wind in the same direction. The Sound was literally one entire sheet of foam. When we started out, the tide was coming in, and the wind blowing against it, as it is called, and the New London light-boat, at times, the wind apparently lifted the tops of the waves, and carried them before it in a sheet of spray, so as to give all the colors of the rainbow.

FROM SATURDAY'S 3D EDITION.

HALF PAST 2, P. M.

The following particulars are from the Second Edition of the New London News of Friday:

A part of the Atlantic's machinery gave out on Thursday night—the steam box burst shortly after she left New London, being wrenched apart by the heavy sea, and letting go her anchor, she drifted to within a quarter of a mile of Fisher's Island shore, where she was riding at anchor when the Mohegan went down to her on Thursday noon.

The persons who lost their lives did so in attempting to get on shore.

The following are the names of some of the persons lost:—

Capt. Dustin, of the Atlantic; Dr. Haslip, of the Navy; Lt. Norton, of the Army; Rev. Mr. Armstrong, John Walton, Mrs. Jane Walton, and their children—John James, and Elenor James, all one family, from West Newburg, Penn.; Mary Jor-

don, Boston; Collamore, Boston; Wm. B. Solace, Bridgeport, Vt.

The following are the names of such of the crew lost, as we have been able to ascertain:—

John Gleason, Thomas Gebney, Michael Dougherty, Charles Ryley, John Macfarlin, Warren Smith, Phillip Mayhew, Mary Ann Hilton, Sarah Johnson, chambermaids, all of New York.

The following are the names of passengers saved:

Capt. G. W. Cullum, U. S. Eng. Corps; Secretary Brewster, N. Y.; Capt. P. Hanna, Portland; C. C. Orr, Ky.; J. R. Andrews, G. W. Rogers, G. W. Burgess, New London; Lt. C. S. Steward, U. S. Eng.; Chas. Banded, N. Y.; Hiram Taylor, Lisbon; F. Herrick, Boston; C. C. Cottrick, N. London; T. Truesdell, Varnham Marsh, John Williams, Wm. Edwards, Chas. Partridge, New York; T. Goodhue, E. T. Booth, E. Madden, C. Peterson, Jas. Wilson, Boston; N. Reise, N. J.; C. Mitchell, Norwich; H. Van Wart, England; N. Atwood, Richard Atwood, Mass; R. S. Bonnum, Calvin Houghton, Bridgeport, Vt.; Francis Hirsch, Boston; T. F. Baldwin, Cincinnati.

The following officers of the boat were saved:—

Capt. Nathaniel M. Allen, pilot; Charles Crandall, second do; Dennis Spellman, wheelman; Elias Kingston, first mate; R. W. Duncan, second do; John Koester, steward; James M. Dobbs, first engineer; Eli Birdsell, second do; John J. Gale, third do; Chas. Christian; Jas. Stetson, Capt's Asst.; Wm. W. Boyle, clerk; F. S. Baker, gas engineer; Thomas C. Gould, Adams's messenger; C. W. Woodworth, barkeeper; Henry Freeling; Rich. W. Thompson, barbers; Wm. Willott, cook; Geo. Smith, do; Henry Manchester, fireman; John Thompson, do; Richard Alvord, do; Wm. Allen, deck hand; Thos. McCoy, porter; Aaron McCoy, do; Enos Daily, waiter.

A number of persons were left on the Island, at the residence of Mr. Winthrop, when the Mohegan left, many of whom were badly wounded; and five dead bodies were just picked up when the Mohegan left, but were not taken on board.

The Mohegan has gone to Norwich, with a number of the dead and living persons taken from the Island, and will return to the scene of the wreck this evening.

Mr. George W. Rogers, of this city, it is stated jumped from the stern of the boat on to the beach, but before he could gather himself up he was overtaken by a wave and carried far out into the boiling surge, among broken pieces of the wreck.

Capt. Crandall, the second pilot, states that no earthly power could have rendered them any assistance on Thursday.

It is related of Capt. Dustan, who took and kept his position over the upper saloon, that to the repeated and earnest solicitations of his companions in peril, not to expose himself thus—he replied, "IF THE ATLANTIC GOES, I GO WITH HER."

POLICE STATISTICS.—From May to November, 1846, the various stations of New York city reported to the chief of police 15,763 arrests, being considerably less than the previous six months. Of these 4526 were for intoxication, vagrants 1259, intoxication with disorderly conduct 3239, petit larceny 1090, disorderly conduct 2168, assault and battery 1103, disorderly prostitutes 321. Besides these there were 1503 reports of violations of the city ordinances, several for throwing coal ashes into the street. There were reported 574 houses of prostitution with the names of the keepers, 1417 inmates.

VELOCITY OF A CANNON BALL OR SHOT.—When the mammoth cannon was recently proved at South Boston, the heaviest shell was thrown about three miles, and the time occupied in its journey was a minute and a half. Thus it appears that its velocity was only about double that of some of the English railroad expresses.

NEWPORT DAILY NEWS.

MONDAY, NOVEMBER 30, 1846.

THE ATLANTIC.—A large portion of our columns to-day, is occupied with the heart-rending account of the loss of the noble steamer Atlantic, which was published in the second and third editions of the News on Saturday. The gale was most tremendous on Wednesday and Thursday nights, of last week, and our only surprise is that any steamer should have ventured at such a time; but it seems that none of them were detained, as the Massachusetts came through to Stonington, arriving there at about 11 o'clock A. M., on Thursday. She passed the Atlantic at anchor, near Fisher's Island, with her smoke pipes gone, but no danger was apprehended at that time, as the passengers were amusing themselves about the deck. The wind blew so high then, that it was impossible for the M., to render her any aid. The wind afterwards increased, she parted her cables, and several heavy seas struck her in quick succession, reducing her to a total wreck. Her brave, experienced and noble-hearted commander, the poor Dustan, perished at the moment, in attempting to reach the shore; his body was found soon after. She had about seventy passengers in all, it is supposed, and between forty and fifty of those were lost; all the crew, with the exception of three, were saved. This is another fearful warning of the dreadful uncertainty of time.

FROM MEXICO.—Another revolution has taken place in Mexico, and President Salas has been obliged to fly the capital. An action was daily expected in the city of Mexico, between the insurgents, and the adherents of Salas and Santa Anna. A letter from Anton Lizardo, near Vera Cruz, dated 7th November, says that the Mexicans have taken all their guns and troops from Tampico, to assist Santa Anna at San Luis Potosi, where there is a large army.

U. S. A. quorum of members of Congress is already assembled in Washington. The session will be important and exciting.

THE NEW YORK ILLUSTRATED MAGAZINE for December is on our table, with its usual punctuality. It contains "The Seamstress," "Brooklyn, in the olden time," "Hesitation," and "Murza, offering the poisoned fruit," being beautiful steel engravings, of an exceedingly rich and finished character. The literary articles, both original and selected, are choice in their nature, and valuable in the lessons which they teach. We cannot but again recommend this valuable and cheap publication to all our readers. It is published monthly, by William Taylor & Co., No. 2 Astor House, New York, at the low price of three dollars per year.

A naval court martial is to be held at Norfolk, to inquire into the causes and circumstances of the loss of the United States brig Truxton on the bar at Tsupan.

It is expected that Com. Stewart will shortly depart to direct the operations of the Gulf squadron.

DISASTERS.
From the brig Mary's Log Book.

Nov. 11th, 55 miles south of Cape Fear, fell in with the wreck of the schooner _____, hailing from Wilmington, N. C., with foremast gone to the deck, mainmast about 25 feet above deck, no one on board, she being apparently stripped of every thing, there being nothing to be seen but a few pieces of pine lumber on deck, did not think there was any water in her, as she set very light on the water. Monday, 23d, had a severe gale from the N. W. Tuesday, 24th, moderate; Sandy Hook bearing N. W. about 75 miles, saw a fore and aft schooner with head of mainmast gone, with a signal of distress flying, and a ship laying by her, should think boarded her. At 2 P. M. same day, saw a ship to leeward showing a signal of distress, ran down to her, and found it was the ship Zenobia, from New York for _____, leaking badly and both pumps choked, bound back to New York, was requested to keep company for fear she would go down, did so. Wednesday, 4 A. M. took the wind from the S. E.; still in company with the ship, with all sail set, steering W. N. W.; at 2 P. M. the wind had increased to a gale, and hove to, the ship done the same, about a 1-2 mile astern; at 2 P. M. moderate, with light wind; we still within 1 mile of each other; at 5 P. M. took the wind from the N. W., the ship still coming after us; at 8 P. M. lost sight of her, wore ship and stood to the S. W.; at 8 1-2 past saw the ship to leeward, set a light but could get no answer, it then blowing a gale from the N. W., and we laying to under fore topmast staysail and storm spenker, the sea making a complete breach over us, we being then in 22 fathoms water.

Sch Susan, (of Boston,) Carlo, fm Alexandria fr New York. Experienced on the night of 23d a severe gale from the NW, lost foresail and split mainsail. On the night of the 26th experienced another NW gale, split mainsail badly, lost boat, and stove galley. Cargo—corn and flour.

Ship Zenobia, Kenny, 7 days from New York for Liverpool, with 80 passengers and a cargo of wheat and flour, put into this harbor yesterday morning in distress. First night out she experienced a heavy gale from the NNW, which caused her to leak badly, and her pumps choked. She reports having passed the 28th, a schooner showing "Herald" in her signal, probably had been out sometime.

CLOTHING. CLOTHING.

Large enough for the largest man, and small
enough for the smallest boy.

We warrant them a perfect fit,
That's not the most successful hit?
For with their matchlessness of cut,
Far more celebrity we've got;
Small gain on one alone we reap,
But here's our motto—"we sell cheap."

At the great

OREGON CLOTHING WARE HOUSE,

Corner of Thames & Franklin Streets,
May be seen the largest and most splendid as-
sortment of Ready Made Clothing ever offered in the
town of Newport, at prices which cannot fail to
suit, and a little superior and cheaper, than at any
other similar establishment in the town. These
goods cannot be surpassed, if equaled, for neatness,
taste elegance, and durability. This well selected
stock was bought on the cash system, and can and
will be sold cheap. Come now all ye, while the
doors are open unto you, and be clothed from the
crown of your head to the soles of your feet.

Among the above named articles may be found
Coats,

Which dignify the human form—
As beautiful as they are warm.

Pilot Coats.

They cost mere nothing, and so stout,
It takes you years to wear them out.

Bever and Broadcloths.

They seem forever fresh and bright,
And give the wearer great delight.

Dress Coats.

Cut, pressed, and made in tasteful manner—
They win the envy of the seaman.

Pantaloon.

Fine stitches, tightly drawn, and strong—
The reason why they last so long.

Vests and Scarfs.

There's nothing can adorn the breast—
So well as can a handsome Vest.

But what's a Vest without a Scarf?
It's like a smile without a laugh;

It loses half its expression,
No man should think of such aggression.

Also may be found Collars, Bosoms, Shirts,
Handkerchiefs, Gloves, Suspensers, Hats, Caps,
Boots; Shoes, and all other articles generally worn
by the Male part of the community. Don't forget
the Oregon Clothing Ware House corner of Thames
and Franklin Streets.

Bogle's Hyperion Fluid; Or Vegetable Hair

Composition.
THE subscriber has been induced to bring this
article before the public, at the request of his nu-
merous customers, among whom are physicians,
and citizens of the first respectability, who have
adopted its use in their families, and wish others to
participate in its advantages.

The Hyperion is composed of vegetable ingredi-
ents, the secret of compounding and blending which
is known solely to the subscriber. It is an arti-
cle in which a cleansing and purifying wash is
beautifully blended with a most delicate, silky and
glossy moisture never before attained, yet free of
animal grease or essential oils. It clears the pores
of the skin, causes a healthy action in the blood,
vessels, nerves, &c., which feed the hair, thereby
preventing **BALDNESS AND GREY HAIR.**

It entirely frees the skin from Scurf, Dandruff,
and other cutaneous diseases, disposes the hair to
curl, and changes the harshest hair into the most
soft, glossy, and healthy state, also imparts to it a
darker color, and the free use of it, both on the
skin and hair, in a most healthy and luxuriant
state until the latest period of life.

Ladies will find the Hyperion a great addition to
the toilet, both on account of its delicate and agree-
able perfume, and the great facilities it affords in
dressing the hair, which, when moist with the flu-
id, can be dressed in any required form, so as to
preserve its place, whether plain or in curls.—
When used on children's heads, it lays the founda-
tion of a good head of hair.

Genuine Bears OIL—Highly Perfumed.

Perhaps our ladies
and fashionables are not aware
that three quarters of the 'Bear's
oil' (so called,) with which they
anoint their locks, wandering that it does them
so little good, is nothing in the world but hog's lard,
so highly scented as to escape detection, save on

fact, and one that ought to be known. The only
safe way is to purchase your Bear's Oil of **HENRY

TO THE AFFLICTED!

DR. BANNING'S PATENT LACE! An immediate Relief to Incipient Consumption, the Bronchitis of Public Speakers, Palpitation of the heart, Dyspepsia, Spinal Weakness, Piles, Protrusion, and Diseases of Women, without Medicines.

THIS instrument has been examined by Drs. Mott, Rodgers, Francis, and Grison of New York, the faculty of Pittsburgh, Hartford, New Haven and Middletown, and has obtained for itself their favorable testimony. The following will show what kind of testimony might be produced in many cases:

Middletown, June 25th, 1843.

Dr. Boardman,

Sir—In answer to your inquiry respecting my case, I will merely say, that I have been sick since I strained my breast and loins in May, 1835, from that time continued to grow worse, when in the fall of '39, I abandoned business, and have not done any thing since. I suppose from all I could learn about my case—frequently raising blood, coughing very hard and expectorating profusely, deriving no benefit from my physicians, and all medicines recommended to me, that my case was hopeless. Last winter my brother told me he had heard a good account of Dr. Banning's Lace in such cases, and was anxious that I should try it; accordingly I procured one from you, and since I began to wear it, my breathing, which was very short and laborious, has become easy and natural; the pain and fluttering or palpitation of the heart has subsided; cough and expectoration greatly lessened, my limbs which were exceedingly painful have become useful, so that I can walk comfortably. I am able to shave myself with comfort, which for many years I have not been able to do. The pills, which have troubled me for nine years, are nearly eradicated. I work in the garden, and am able to ride 4 miles at once with pleasure and benefit. Yours, &c. WM. RANNEY.

Dr. G. M. Boardman,

Middletown, June 25, 1843.

Dr. Boardman,

Dear Sir—In answer to your inquiries respecting the effect of Dr. Banning's Lace in the case of my wife, I will state that for twenty years past, she has been afflicted with a complication of complaints to which females are subject. She has tried all the physicians and all the medicines recommended for such complaints, without regard to expense, and found only temporary relief. Her most distressing complaints, palpitation of the heart, oppression and a sense of great weight at the pit of the stomach, protrusion of the womb, &c., were believed after wearing the lace two hours, and she has continued to improve daily. With this view of the case I cannot use language strong enough to convey my approval of the instrument. aug 29th.

STEPHEN BROOKS, JR.

PROVIDENCE, Feb. 26, 1846.

Doctor Boardman,—Dear Sir—I now take my pen to inform you that my wife's health has improved very fast for the last two weeks from wearing one of your Laces. She has been out of health about two years and has worn a different Supporter from yours, which had only two pads. She received some benefit from that—but it would not produce a cure. But now I can say with pleasure that she is as smart as any of the young girls in the neighborhood. She can now run up and down stairs as fast as I can, and I feel so well pleased with it that I hardly know how or what to write. But one thing I do now, that she has been under the care of seven Doctors in one year—and wearing your Lace two weeks has or will do the cure in a very short time. I want to write more, but I have no time. I am truly, your friend and well wisher.

Doctor Boardman, proprietor of Banning's celebrated Patent Body Brace, for this state, has taken rooms at No. 8, Broad street, where he may be consulted, free of charge. He is enabled to treat, successfully, cases of Rheumatism, Neuralgia, Headaches, Deafness, loss of Voice, Bronchitis, Weakness and curvatures of the spine, and chronic diseases generally. He is enabled to refer to numerous cases in Providence, and this town. aug 28

Clove Anodyne, Toothache Drops.—The Clove Anodyne is the best of all Toothache remedies. It is immediate and certain in its effects, during the most violent toothache, or pain in the gums in ten minutes.

Experience has proved that this Anodyne composition will give immediate and permanent relief, after the failure of every other remedy; it is pleasant to the taste, and small; will not injure the teeth or gums in any way, and a few applications will entirely renovate the pain and soreness from a decayed tooth, so that it may be filled and rendered useful as ever. When the pain proceeds from the face of gums around a tooth apparently sound, this application will give speedy relief, by rubbing a few drops to the part affected. Price 25 cent. Prepared and sold by HENRY JOHNSON, Chemist and Druggist, 273 Broadway, corner of Chamber-st., in the granite building. Sold in Newport by R. R. HAZARD, near the Court House. Oct 27 6m

From the Brooklyn Daily Advertiser.

173—A BEAUTIFUL YOUNG LADY residing in W. street in this city, has received great and unexpected benefit from the use of that excellent specific **RADWAY'S CHINESE MEDICATED SOAP**. Some few weeks since she was on a visit to some of her relatives in South New Jersey, where she was very severely bitten by mosquitoes, and being at the same time very much exposed to the scorching rays of the Sun, she experienced great pain, and irritation from the effects of the mosquito, and much annoyance from the unnatural darkness of her tanned complexion. We recommended her to use that excellent Medicated Compound, **RADWAY'S CHINESE MEDICATED SOAP**, she complied with our request, and in three days there was not a single spot, blemish, pimple, or blotch left upon her skin, and her complexion is now as fair as the lily.

Ladies, secure without delay a cake of this estimable Soap, it will purify your skin, improve your complexion and remove all disfigurements entirely, from the surface of your system. Price 12-12 cents per cake. Sold in Newport by R. J. TAYLOR, Agent. Aug 7

IT is now about ten years since this medicine has been introduced to the public, and it stands unrivalled in its effects, bearing the test of the severe scrutiny of all classes, both friendly and unfriendly. It is but for one purpose—for the use of Mothers who have to pass through a sea of affliction in giving birth to mankind, not to be described. It is to you we make an appeal. It is for your special and general good that you should make use of one bottle of the **MOTHER'S RELIEF** before confinement. Then you can approach the parturient chamber without feeling as if you were going to the chamber of death. You may rest assured it will still all ferber and nervous affection. It soothes and shields from irritation and by its peculiar properties it destroys the cause of hemorrhage or inflammation that so often attend and follow the hour of parturition. It calms sweet and natural rest, and at last facilitates the birth, so that Mothers have not to pass through such excruciating pain and distress. The Mother's Relief may be depended upon in all cases of threatening abortion where it is possible to be prevented in cases of Spasms; &c., causing frequent alarm, from two to three doses will give immediate relief.

As the subject is one that cannot with propriety be fully discussed in this public manner, we invite all who feel interested to call on our agents (most of the respectable Druggists in the United States,) or on the manufacturer, and they will be furnished with a pamphlet in which they will find all the facts to form a correct opinion of its merits, and also the opinions of many physicians of eminence, and of persons who have become acquainted with its beneficial effects.

CAUTION TO PURCHASERS.—Ask for Bannock's Mother's Relief. None is genuine unless our signatures are found within the wreath of the direction that is pasted on the bottle, signed with our own hand, and over the neck of the bottle is a fac simile of our own hand writing, also, by attending to the above directions, no one need be imposed upon. All orders will be promptly attended to. **DR. G. A. BARTHOLOIC,** Office on the corner of Fitzhugh street, opposite the Co. Clerk's office, Rochester, N. Y.

LORRAINE'S PILLS.

ALL persons require Facts in ANY DR. LORRAINE'S CURATIVE SYSTEM OF MEDICINE is rapidly producing achievements never before known in the cure of diseases. The immensity of its wonderful results, alone demonstrate that its principles must be founded on truth. The relative proportion of Cures by this Medicine is out of all proportion greater than by any other Medicine known.

THE THEORY is, that one blood beats in the bosom, and flows through the body of every man, and must be pure, it is the Vital Principle that sustains life.

Physicians, and people of every class are willing to come forward and announce in the most public manner that they have been cured of long standing complaints—after another medicine had failed. In fact there can be no doubt but that Lorraine's vegetable Pills is the best medicine ever offered to the public.

Sed a feto, public statements of such of truth, and virtue.

Lynn, Dec. 17th, 1843.

Sir—I have sold all the pills I last had of you, please send another lot immediately. The sale of Lorraine's vegetable Pills is rapidly on the increase, they are becoming very popular. I sell more and more every day. As a curative medicine and purifier of the blood, I think they stand unrivalled. One fact I have noticed, that no one that has used them finds any fault with them; they have wrought some very great cures. One lady, who has been confined to the house and bed a great part of the time, for twenty years, is now cured and able to work most of her time, after having taken 3 boxes only of Lorraine's Pills. I might make many other cases where the cures have been as great, but have not time. Yours respectfully,

Sir—Please send us one gross of Lorraine's Pills, we have sold all we had last. They have given very good satisfaction, better than any other pills which we have in our market. I think in a short time they will take the place of others. We have had no fault found with them whatever, but on the contrary, they have been praised loudly. I think we could have quite a number of highly respectable certificates from our citizens. Yours respectfully,

E. MASON.

Sir—I transmit to you an account of my case for publication, believing it to be my duty. I have been afflicted with the Rheumatism nearly the whole winter, have had some of the best physicians of Boston and could get nothing that would relieve me more than temporarily. I heard of the wonderful virtue of Lorraine's Pills, I had no faith whatever, but I took them, and it is a solemn fact that when I had taken but eight pills my Rheumatism had entirely left me, and I have remained well ever since.

N. B.—I never took more than one pill at a time and that on going to bed.

Yours respectfully, W. M. HALSTAD.

OPINION OF A SKILLFUL PHYSICIAN.

Sir, the operation of Lorraine's Pills is past any philosophy to find out, how so small a Pill can produce such wonderful effects. I find that one of them will operate more than 3 or 4 of any other Pill, yet in their operation, mild, gentle and comforting. On this account, they are more than 100 per cent, cheaper as a physic, than any other Medicine I know of.

These Pills are now acknowledged by thousands who take them daily, to be the only medicine that fairly takes the banner from all others. This extraordinary medicine has actually done wonders within one year past. They cause no pain or uneasiness of any kind in their operation, and require neither change of diet or care of any kind.

The attention of the reader is respectfully called to the important results from the use of these Pills. It will be seen, however great achievements have heretofore been made by the use of this invaluable medicine, still greater and more remarkable cures daily happen.

PILOTAGE.

THE subscribers respectfully inform the public, that they are in constant attendance as Pilots on, this Coast and Bay, and by their long experience in the profession, which is well known to merchants and mariners, gives them advantage over those persons who have lately intruded themselves into the profession, without practical experience or skill, and are constantly endangering the lives and property entrusted to their management.

We trust that this notice will be suitably appreciated by all masters and owners of vessels, who have a due regard to their own interest and security.
